Lafe Skaggs and Link Ferguson passed down our creek with a nice lot of fat hogs.

A fact often overlooked, or not always understood, is that women suffer as much from bladder and kidney trouble as the men. The womb is situated back of and very close to the bladder, and for that reason any discress, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort.

Not Always Understood
